

# How to sign up to Uber - QLD

splend<sup>Q</sup>

In order to provide rideshare services in Brisbane, Queensland and the Gold Coast, you'll need a Driver's Authorisation from the Department of Transport and Main Roads (DoT).

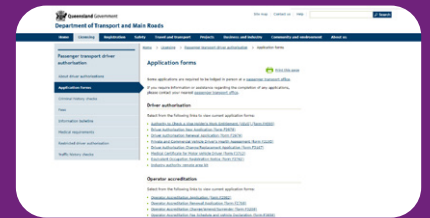

Check out the steps below on how to get started.

1

## Complete a Driver's Authorisation (DA) application

- Start your application for a DA first. You can access this here: <https://tinyurl.com/ya9nfv8w>
- If you are applying for the first time, choose "Driver Authorisation New Application"
- Print out the form, fill it in and take it with you when you get a medical assessment in the next step
- The cost is \$321.35/year

2

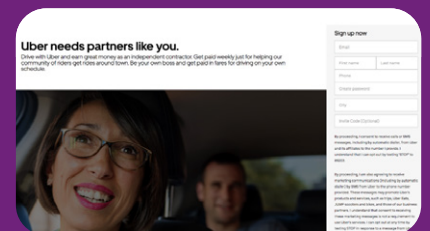

## Get a medical assessment

- Book and complete a commercial medical assessment at your local GP
- When booking this in, remember to also bring your Driver's authorisation form with you
- You can also choose to do this at the Uber Greenlight Hub in Brisbane for \$85

3

## Create an Uber account

- If you don't have an Uber account, create one now: <https://tinyurl.com/y8xk7mof>
- If you have an Uber Eats account, contact the Uber Support team and advise them that you would like to drive Uber X
- Your Splend sign up specialist will be able to help you upload your documents further down the track
- Once your account has been created, upload your DA to your account. The team at Uber will give you a call once this has been approved by DoT

4

## Complete a Driver Safety Education course

- In Queensland, you and Uber have certain obligations to ensure the trips you make a safe. You are required to complete a Driver Safety Education course before you can start using the Uber app. Link here: <https://bit.ly/3dxNRNm>

Congratulations on finishing up all the necessary steps needed to get you driving rideshare and signed up to Uber. Once you receive your confirmation email from Uber, contact your Splend representative for vehicle collection.
